

PLATFORM ONE

ACCELERATE SECURE SOFTWARE DELIVERY FOR THE DOD

MISSION Guide, empower, equip, and accelerate DoD program offices and weapon systems through their DevSecOps journeys

VISION Fundamentally transform how the DoD delivers secure software at speed through DevSecOps culture, process, and technology

THE HEART OF MILITARY SOFTWARE

THE PLATFORM ONE PRODUCTS

SECURE AND CONNECT USERS

Cloud Native Access Point provides zero-trust security for development, test, and production enclaves

HARDEN & STORE IMAGES

DoD repository of hardened and approved binary container images approved for DoD-wide use across enclaves

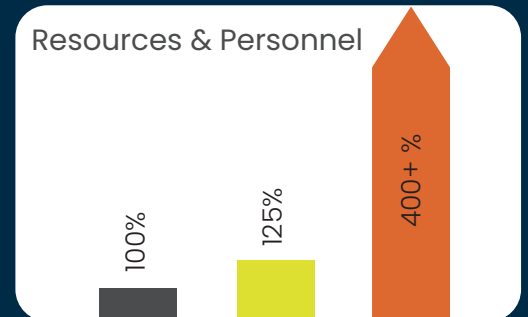

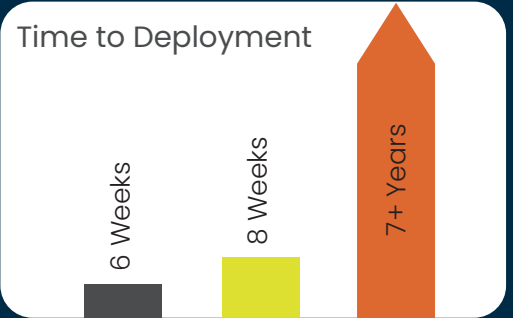

BUILD & DEPLOY PLATFORMS

Infrastructure as Code (IaC) and Configuration as Code (CaC) deployable to cloud or on-premise infrastructures

FAST & EFFICIENT DELIVERY

- Commercial
- Platform One
- DoD Baseline

COMMERCIAL LEVEL PERFORMANCE

Software Update Time

Commercial: Days
Platform One: Days
DoD Baseline: 7 Years (Avg)

Daily Software Builds

Commercial: Thousands
Platform One: Thousands
DoD Baseline: Not Capable

Technology Utilized

Commercial: Containers
Platform One: Containers
DoD Baseline: GOTS and Closed IP from Primes

IRON BANK PROCESS HIGHLIGHTS

The Iron Bank approval process centralizes and standardizes application hardening throughout the DoD. This information is stored in Repo One.

Every 12 hours applications are built and scanned again for findings

Applications are continuously updated to the latest version

Body of evidence that is public facing and readily available for use

DISA STIGs, CIS benchmarks, and best practices applied

IRON BANK FACT SHEET

What is Iron Bank?

Iron Bank is the DoD Centralized Artifacts Repository (DCAR) of digitally signed, binary container images

What does Iron Bank Include?

Both Free and Open-Source software (FOSS) and Commercial off-the-shelf (COTS)

What does it mean to be Iron Bank Accredited?

Containers accredited in Iron Bank have DoD-wide reciprocity across classifications

How are Artifacts Hardened?

All artifacts are hardened according to the Container Hardening Guide.

How many containers are Available?

Over 800 containers available today and growing
